Why CAPAPA

Demand in Canada for well-qualified access and privacy professionals is soaring — as is the demand for professionals who hold CAPAPA's Professional Certification.

CAPAPA is the leading national association in Canada that is dedicated to Access and Privacy Professionals in both the private sector and the public sector.

CAPAPA's reach across Canada is unparalleled for increasing awareness and engaging discussion about the privacy impacts of current and emerging technology. Legal and legislative issues. Educational and training opportunities. Social issues and impacts. Trends and developments in Canada and beyond.

CAPAPA Professional Certification is the only substantive made-in-Canada solution for the certification of information access and privacy professionals. And it's the only one based upon national competence standards.

CAPAPA is the only national professional association that provides independent and unbiased certification of Access and Privacy Professionals across Canada based on a rigorous process that evaluates skills, knowledge, experience and education.
